

ENDS AND TRENDS WITH KIM AND KAREN

Karen's Trend Alert: It's called ikat. The print reminds me of inkblots from a Rorschach test but lots of people love this hot trend. So much so that you can't help but see it everywhere and on everything! You'd be amazed at the versatility of the print.

This exotic print with tribal influences is a big hit with designers – both interior and fashion. I've seen it on dresses and handbags to bedding and rugs. Vibrant colors and its geometric patterns make it eye-catching. It's bold and artistic at the same time.

Add an ikat pillow or a rug to any room for a jolt of color! Try an ikat scarf or top to your wardrobe for a little sassy flair. And with everything, a little bit goes a long way!

Happy ikat shopping!
